

## Don't let patients pay the price after you spend a penny.

Many germs can be spread by hand contact. Cleaning your hands thoroughly and on a regular basis with soap and warm water or an alcohol-based hand rub greatly reduces the risk of spreading infections such as colds, tummy bugs and healthcare associated infections. For more information visit [www.washyourhandsofthem.com](http://www.washyourhandsofthem.com)

Germs. Wash your hands of them.
